Workshop Planning Questions: All workshop materials are currently downloadable (as you read this) for the most part. Some workshop images are built in other software and that software has to be installed before you can view them. I have tried to make this work for the most part, however, the workshop is built in Adobe Illustrator and you have to install that software before the workshop images show up. I am working on getting it working in other software as well. I also have a standard blueprint and a PDF or 2 for each workshop. The standard blueprint is a blueprint for
