History AutoCAD was originally developed in 1987 at Autodesk by Tomáš Masaryk, along with the founder of the company Albrecht Ritschl. The name AutoCAD, derived from Auto-Compatible Drawing and Design, was chosen because it was a simple and easy-to-remember name, even though the name didn't reflect the functionality of the product. The first release was a start-up version of an application called CARAD (Computer Aided Researcher and Draftsman), based on an Interlisp-D language. It was released under a General Public License, and the first version was a1d647c40b
