While many salons offer tanning services, only a few will do so using the revolutionary HydraLuminator® technology, and it's all thanks to today's 5-star rating from the International Tanning Association (ITA). "The HydraLuminator® is a simple answer to a complex problem: avoiding over-sunburn," explains Dr. Richard Brown, director of the HydraLuminator® program. The

HydraLuminator® applies controlled ultraviolet (UV) light to the skin, and produces a custom tan, without using chemical sunscreens. And unlike other tanning booths, HydraLuminators® are self-regulated and controlled, so you can stay within the specific tanning parameters, with no darkening or burning. HydraLumin
