## Nokia PC Suite Cleaner

Nokia PC Suite Cleaner supports cleaning up of Windows 7, Vista, XP and Windows Server 2003, 2008 and 2008 R2 operating systems. The version reviewed here was 100% compatible with Windows 7, Vista, XP, 2003 and 2008. In addition to that it also supports Windows Server 2008 R2 and 2012. However, it was not tested with Windows Server 2012 RC. While this review was conducted using Windows 7 and Windows Server 2008 R2, please also note that it may also work with other operating systems. System Requirements: Windows 7, Vista, XP, Server 2003, 2008 and 2008 R2

The Nokia PC Suite Cleaner software will help you clean out Nokia PC Suite program leftovers and unneeded files on your PC. All it takes is a few clicks to restore a fast and efficient computer. As a Nokia PC Suite uninstallation tool, it may be used to remove the unwanted software installed on your computer, as well as remove old or unnecessary files. It may also be used to remove the built-in desktop software that Nokia PC Suite provides. What makes the software stand out from other programs of its kind? The following features set it apart from the rest:

- Automatically removes leftover files and registry entries after uninstalling Nokia PC Suite
- Supports all versions of Windows from Windows XP to Windows Server 2012
- Runs through all the necessary actions to remove all files and registry entries and restore the computer to its original state
- Supports wiping files, folders and registry data without data loss

If you want to get rid of these Nokia PC Suite leftovers without causing any harm to your computer, this program is a great option to use. A full-featured solution to remove all traces of Microsoft Access products from your PC. It will remove all software, files and registry entries created by Access 2003, 2007 and 2010. The program comes with a built-in user-friendly interface, which will allow you to easily navigate through the process. Removing unwanted entries is a very tedious task. Therefore, Microsoft Access Products Cleaner removes all such entries and then deletes them, thus restoring your PC to its original

---

state. It also removes all traces of other Microsoft products, which means you will have a clean operating system at the end. The following actions are performed by the program:

- Deletes all installed Microsoft Access products and associated files
- Removes all files that are associated with a specific program, such as.MSI,.MSD

#### **What's New in the?**
