Back in January 2018, EA Sports announced our vision for the future of FIFA and how EA SPORTS are committed to delivering fun and gameplay innovations to make FIFA the biggest game in sports, all across all platforms. To deliver on this, our biggest ever game development endeavour, we enlisted the help of some of the world's greatest designers. Five organisations were given the chance to collaborate with the EA team to ask and answer one question: how do we make FIFA even bigger? The end result is the biggest overhaul of the core FIFA engine in the franchise's history, creating exciting new features such as dynamic movement, an entirely new coaching system and a deep, immersive narrative.
