What's new:

As much as I love the neverending feedback loop that is Stargate Atlantis season five, there just aren't enough monster effects, explosions, or Martian space ships to justify the whole thing. As luck would have it, I happen to be big into collecting little SFX collections, and I've never turned down a good opportunity to blend some of my personal favorites in with the SGA sound mix! Being the patron dearest of such a diverse collection, I thought that what the loyal reader really deserved was a Spark and Sparkle Soundtrack appropriate for all of the delightful magic that they might produce! I didn't want to cherry pick some of my favorites (although I'm sure you can see which ones I chose) and mess with any of the amazing (or terrible, depending on your viewpoint) original compositions and sound design efforts that were present on the DVDs. So that's where I turn to you people. Who's done a good job mixing lots of monster sound effects into SGA, etc.? I've already got a great one for Stargate: the Hurricane Effect, but I love to replace that with a few other sounds that I've gotten, as well. Frankly, I'd also love to see new compilations for some other shows that have lots of little SFX sounds (Fringe, Caprica, Stargate: Atlantis, Stargate: Universe, and even any of the later, lesser-seen Space shows) so I want to know which of your favorites are out there, sticking in place with the program material. If you've got any favorites of your own, go for it. Though I'm sure the topic will be ongoing… I've burned through the Atlantis sounds. I've replaced all of the ambient green and blues with dark metal/rock music. I added a few enemies to what is a bit of an incomplete/unsatisfying mix. Take a listen to it here. Glad you liked it I'd be tempted if I was inclined to make such a compilation of my own. The most I've collected has seemed to be under the notion of (potentially up to) 6 magical soundtracks each with some of the show's main musical themes. I'm pretty sure I've downloaded them all and collated them into 'Fringe-esque
