A: Ok, I've seen this before, and what you are trying to do is simply not possible. As the Adobe site says:

You can run the Photoshop CS4, Creative Suite 3, and Creative Suite 4 Installer for Windows Vista with the following limitations: OS: Windows XP (32-bit) OS: Windows Vista (32-bit) And the problem is: You're trying to run the installer for Windows Vista when you've already got Windows XP. You can't have both Windows XP and Windows Vista on the same computer. Now Windows XP is out of support, and so is Windows 7, so unless you have Windows Vista, you can't download that installer. Also, as that link in your question says,

on your computer, you should have 64-bit Windows. So to be clear: You can download 64-bit Windows, and then run the installer for the 64-bit Photoshop CS4, Creative Suite 3, and Creative Suite 4. That link in your question also says: For Microsoft Windows users, you can download the following installers: For 32-bit Windows: For 64-bit Windows: So you should get the 64-bit Photoshop CS4 installer, but this is not the full version, because it doesn't include the new features in the current version.
