What's new:

Astral Flux is an eight-issue comic book miniseries published by Marvel Comics from September 2006 to September 2007. It was written by James Robinson and illustrated by Nick Bradshaw. Issue #8 was co-written by Tim Marquitz and Dionysus and the issue #7 by Al Ewing and Mark Irwin. The series centers on four groups of characters, each a representation of the four elements, fighting for the fate of the Earth. Plot summary Eight months after defeating the Oni, the Coda has ascended to the outer planets to assemble the Infinity

Watch. They returned to Earth, but soon engaged in a major battle against X-Corporation's Shiklah. In the aftermath of the battle, they discover that Earth is now governed by the humanoid Dirac. In what becomes the annual Armageddon Games, Dirac eradicates the Coda and, in the process, destroys Earth. The other four elements, in response, decide to steal the Pym Particles. The Guardians of the Cosmos respond to this theft and decide to combat the intruders, but they face a dozen of the four elements. Surprising the Guardians, the four elements abduct an Infinity Member and sacrifice him to the Cosmos. As the match reaches its climax, the deity Ori equips his already-armored form with the Infinity Ruby, a cosmic quantum computer which would allow him to directly manipulate and imitate the very fabric of space-time. Characters Infinity Watch As the Infinity Watch confronts their new adversaries in a battle fought across space and time, Agents Peter Quill (a.k.a. Star-Lord of the Kree) and Mantis encounter the new Adam Warlock, who offers them the opportunity to destroy the Coda as a demonstration of his power. They accept and they find themselves in the

presence of an elderly man in what appears to be the middle of nowhere. After Quill invokes his authority as a member of the Infinity Watch, the man is revealed to be the lord Ori. Informed of the ongoing conflict, Ori warns the pair that the Coda are attempting to wipe out the combined powers of all Infinity members with a titanic Black Hole. The pair, who have been under the impression that the Coda still remained on Earth, agree to help arrest the invaders. Before they could leave, the young couple sacrifices themselves in the Coda's latest attack, and when no more Infinity members will step forward, Ori is forced to summon the energy that

“Chromatose is a game that acts like an interactive comic book.” Storyline: “In the middle of the night, a young man is awakened from a deep sleep by a call from the radio. He tries to turn on the radio, but to no avail. He calls the police, but no one answers. Standing in front of the radio, he notices a familiar logo, and decides to turn on the radio.

As the man turns on the radio, the place comes to life. No one is there. Instead, it is filled with music. The source of the music is a note that the young man finds, and it says, "What is with these people? Why don't they leave me alone? This is all too much." The man explores the music and finds a TV set on the other side of the radio. He sees his life flash before his eyes and that he is walking with his father through the snow. Suddenly, he finds out that they are in a space that is bigger than a room, and it is a hospital. The man runs from one end of the room to the other and sees people everywhere he looks. When he turns around, he finds a table and a person named Dr. Green. He asks for what is wrong with everyone, and then Dr. Green holds up the note from the other side of the radio. It says, 'All of those in the room are going to die. When they leave, it will start again.'" "These scenes are moving and well done. At no point do the scenes feel unrealistic or jumpy. Not to mention, the characters get to say really nice things and have their own interactions." Gameplay "The gameplay was made interesting because of the card-based nature of it all." "Each battle lasts for

five minutes and involves your character walking around different areas of the room, collecting items, meeting characters, and battling other characters.” “This format creates a unique experience because of the range of possibilities you have. You can attack from a distance with your card in the simplest of situations, or deal massive damage from near to far. You can jump and use counters to dodge and attack.” “The card system is part of what makes it so fun. You never know what will happen and what tools you can use. The character you choose will mostly depend on your personality and the cards you collect.”
