Q: How to show category ID in image caption in Woocommerce? My goal is to bring in the category ID into the image caption. Right now I can only bring in the first letter for the category name, which is all of the items from the category. So I am just looking to take the ID and add it for each product from the category. My code is: $feed = array(); foreach (WC()->cart->get_cart() as $cart_item_key => $cart_item) { $product_image = wc_get_product_thumbnail_uri($cart_item['product_id']); $feed[] = array('image' => $product_image, 'text' => $cart_item['quantity'].'x '. $cart_item['data'], 'title' => $cart_item['variation']['title'],
