It's a tall order, given that it's the longest-running comic book series in the world, and one that takes place over two space-time dimensions. Still, Marvel is planning to introduce a new female-led comic book series, written by Kelly Sue DeConnick (recently nabbed the writer's title on Captain Marvel) and illustrated by a number of different artists. DeConnick is set to take a crack at the Marvel Universe in a new series called Captain Marvel, which will be set in the same universe as the movies and follow the exploits of Ms. Marvel. The series will pick up on a story that's been hinted at in Marvel movies. In Captain Marvel, Carol Danvers, aka Ms. Marvel, is a member of the Kree army, but when she was part of the group defending Earth from the Skrulls, the Kree warned Carol they were in a holding area in the deep space. This isn't the first time that the Kree have appeared in a Marvel comic book. The race first appeared in *The Avengers #1* (also written by Kelly Sue DeConnick) and were then featured as an ally of the team in their own story, which was called *Avengers Reassembled*. In *Captain Marvel*, they'll be a complete new adversary for Carol, as well as be a bit of an added boost to the Kree/Skrull war in the Marvel cinematic universe. The Kree aren't the only alien species Marvel has introduced to the Marvel universe. Before that, the Asgardians, who have been known as the Gods of Asgard, were introduced in *Thor*. They, too, have their own comic book series called *Marvel's Asgard*, which will be transitioning to a new writer, with artists Zane Marcisz and Emma Rios. All of these new series are part of the Marvel Universe Unimaginable Now campaign, which tells stories of some of the lesser-known corners of the Marvel universe. *Captain Marvel* follows a team of Kree soldiers in the deep space. The new all-female *Thor* series tells the story of Thor's father, Odin. The Asgardians aren't all fully formed characters yet. The Marvel Universe Unimaginable Now campaign is a bit of a soft reboot for the Marvel
