Q: Where do I look for the game if I don't see any folder in the folder? The problem is that I do not know where to look. On the C drive the game is not. And in the "start" menu, I did not find the game, too. Please help me. Thanks in advance! P.S. Please tell me where to look for a folder with the game on the way: C:\Program Files\Treyarch\Black Ops 2\). If you need more information, I would be glad to know it. If when you start the game there is no folder /trearyarch/bl2, you need to create it by starting the game and opening the menu "help", select "create folder". In this case, the folder will have three folders: 1) "BI2"; 2) "Saved Files"; 3) "BI2Data"; 4) "BI2DLC". All files from the game are in the folder "BI2"; 5) "Saved Files"; 6) "BI2Data" - these are folders with additional materials to the game (folder "Saved Files" is the main folder, the folder "BI2DLC" contains files from the add-on, and the folder "BI2Data" contains the files obtained by installing additions); 7) "BI2Data" also contains the files necessary for the correct operation of the saved files of the game, as well as all installed add-ons. If you do not have the ability to install the game from the disc (for example, if the disc is damaged), you can create a bootable flash drive with the game, or burn the game to DVD+RW. To do this you need: 1) Download the WinRAR program. 2. Run WinRAR. In the "File" menu choose "Open" or press the "Open" key. 3) In the "Open" window that appears, locate the folder with the game and select it. 4) Click the "OK" button. 5) When WinRAR starts, a list of files with the .tbl extension will appear in the right window. 6) Open the file with the necessary information. 7) Copy file content to clipboard. You can select all information at once and transfer it to another place (another application). In WinRAR this is done by pressing the key combination Ctrl+C. 8) Save file, you should choose from the drop-down list "C:\WinRAR\WinRAR.exe-tbl-file_name.tbl". 7) The archive name selection menu will be displayed 8) Select "Compress TBR file". 9) In the window that appears, select the directory for saving.
