Install additional software Install Adobe Illustrator from the website www.adobe.com, activate it and download the free trial version. Install Adobe Photoshop CS3 from the website www.adobe.com, activate it and download the free trial version. Install the respective design software and activation key from the manufacturer site, e.g. GEDCOM Autocad 18, Merproject and Meridian S1 Generate the design file Generate the design file for the screen format. (See the help page, e.g. tooltips) To generate the *.mnu file, follow these steps: Launch the autocad programm via the.mnu file. Click on File -> Save. Type a name for the.mnu file. Click Save The result of the keygen is a *.mnu file that includes the design of the 3D screen model in.mnu-Format. This file is ready to use to fit the screen for your current design. For more details about the *.mnu-Format see also the help page of your autocad version. Specialized keygen for use with the SQL-Backup Module Depending on the database and the backup module used, there are certain steps to generate the design. The keygen is separated into two versions, one for BackUPS and one for SQL-Backup. S-Base and BackUPS Backup For the backup using the BackUPS Backup Tool from Autodesk, the steps are: Install S-Base Backup and Activation from the website www.autodesk.com Download the latest Release-Version from the website www.autodesk.com Install BackUPS Backup and Activation from the website www.autodesk.com Now it is possible to generate the *.mnu file: Launch S-Base Backup and Activation via the.mnu file. Click on File -> Save. Type a name for the.mnu file. Click Save Important: The option to activate the S-Base Backup Software is only available if the backup software was installed in step 1. For the backup using the SQL-Backup from SAP, the steps are: Download the latest Release from the
