# Fundamentos De Acupuntura Y Moxibustion De China

[Download](#)

This book addresses the reader from the perspective of both theory and practice. This book provides a broad overview of the subject, containing a variety of subjects, including the Chinese medicine cycle, the organ-systems model, the theory and practice of acupuncturing, materia medica, and Chinese dietary prescriptions. It follows the same approach of Fundamentos de Acupuntura y Moxibustion of China, but it offers a more in-depth coverage of the subject, with a number of chapters (more than 100 pages) that present topics not covered in the first book. It is the most reliable and complete book on the subject available in English. This book provides four separate volumes, each focusing on a different aspect of Chinese medicine: The Organ Systems Model Volume I The Theory and Practice of Acupuncture Volume II Moxibustion and Therapeutic Effects Volume III Chinese Dietary Prescriptions Volume IV The Chinese Medicine Cycle; Written by a group of well-known specialists in Chinese medicine, it
