don't stop with just the drums: this pack also contains 10 complete loops of all the other instruments. except for the drums, all loops have drum loops included in the file as well as the corresponding drum-patterns. they also all have a note repeat option, so you can easily repeat them just as you like. but the main difference between these loops is that they are specifically adjusted to the quality of the wav format, so you get more punch and a better volume response, compared to the regular loops included with most other sample packs. the second choice for ultra-hard complextro and dub styles is back! once again, this sample pack delivers 40 dancefloor destroying construction kits that will hammer the dust out of your membranes! as usual, all 40 kits consist of numerous single loops for drum and synthesizer tracks, including kicks, hihats, percussions, bassline, and melody, (often in 2 versions, with and without sidechain), for more flexibility when mixing. bpm and pitch information, clear folder structures and sample accurate cut files are all included. characteristic for dirty electro and complextro are the many different hard bassline fragments which can be played consecutively. this style is rocking clubs worldwide! this is fresh ammunition that will put you right at the forefront. a must have for every serious electro producer! one of the first choices for the fastest growing edm genres is back! once again, this sample pack delivers 40 dancefloor destroying construction kits that will hammer the dust out of your membranes! as usual, all 40 kits consist of numerous single loops for drum and synthesizer tracks, including kicks, hihats, percussions, bassline, and melody, (often in 2 versions, with and without sidechain), for more flexibility when mixing. bpm and pitch information, clear folder structures and sample accurate cut files are all included. characteristic for dirty electro and complextro are the many different hard bassline fragments which can be played consecutively. this style is rocking clubs worldwide! this is fresh ammunition that will put you right at the forefront. a must have for every serious electro producer!
